Seventh Partnership Program visit

# Connection of customers to gas networks

Krivenko Oxana Alexandrovna  
Deputy Head, Department of Price and Tariff Policy  
in the Oil and Gas Sector

17/06/2013

## Legislative acts adopted for the purpose of improving the situation

- Modifications to the Law of Ukraine on the Principles of functioning of the Natural Gas market
- Modifications to the Law of Ukraine on Regulation of Urban Planning
- NERC Resolution adopted on Approval of the Model Agreement for the Connection to Gas Networks
- NERC Resolution adopted on Approval of the Procedure of Calculation of Charges for the Connection of the Customer to the Gas Network
- NERC Resolution adopted on Approval of Payment Rates for Standard Connection to Gas Networks for the Autonomous Republic of Crimea, oblasts, the cities of Kyiv and Sevastopol for 2013
- NERC draft Resolution adopted on the Approval of the Procedure of Financing of Services of Connection of Customer's Facilities to Gas Networks

# How was the gas network connection service streamlined?

How was the gas network connection service streamlined

## Concepts defined

"Standard connection"

"Non-standard connection"

## Process simplified and terms established

Conditions for the gas network connection service became simple, transparent and clear to customers

Clear terms were established for service provision and all steps of the works related to the connection of the customer to gas networks were specified

## Payment defined

Economically justified payment rates were established for connection to gas networks, that will be valid for all regions of Ukraine within one year

## Conditions streamlined

Model agreement approved to be concluded between a gas distribution company and a consumer concerning the connection service

# Standard connection

## Specification criteria:

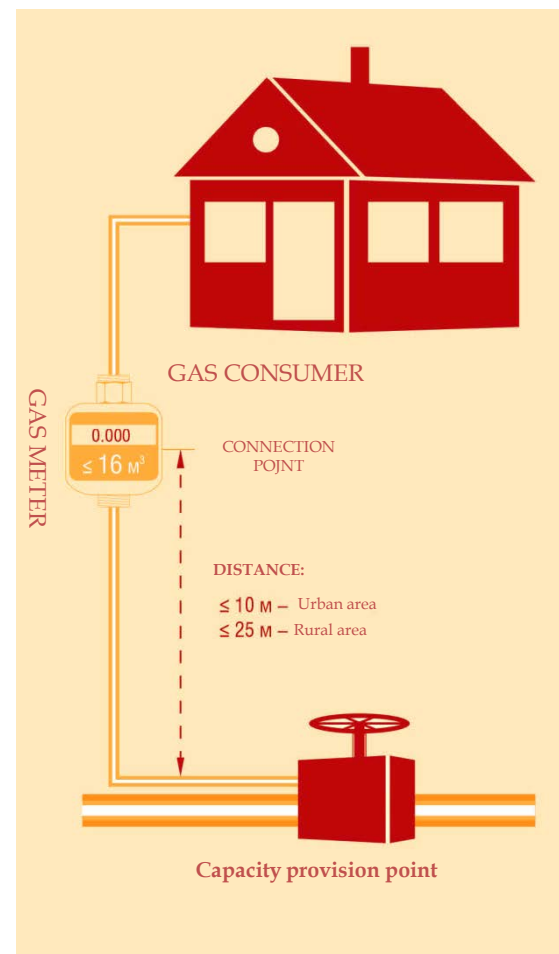

1. Distance from the point of capacity provision to the point of connection does not exceed 10m in urban areas and 25m in rural areas.
2. Gas consumer capacity does not exceed 16 c.m. of natural gas per hour.

## Cost of service:

- Established NERC payment rates

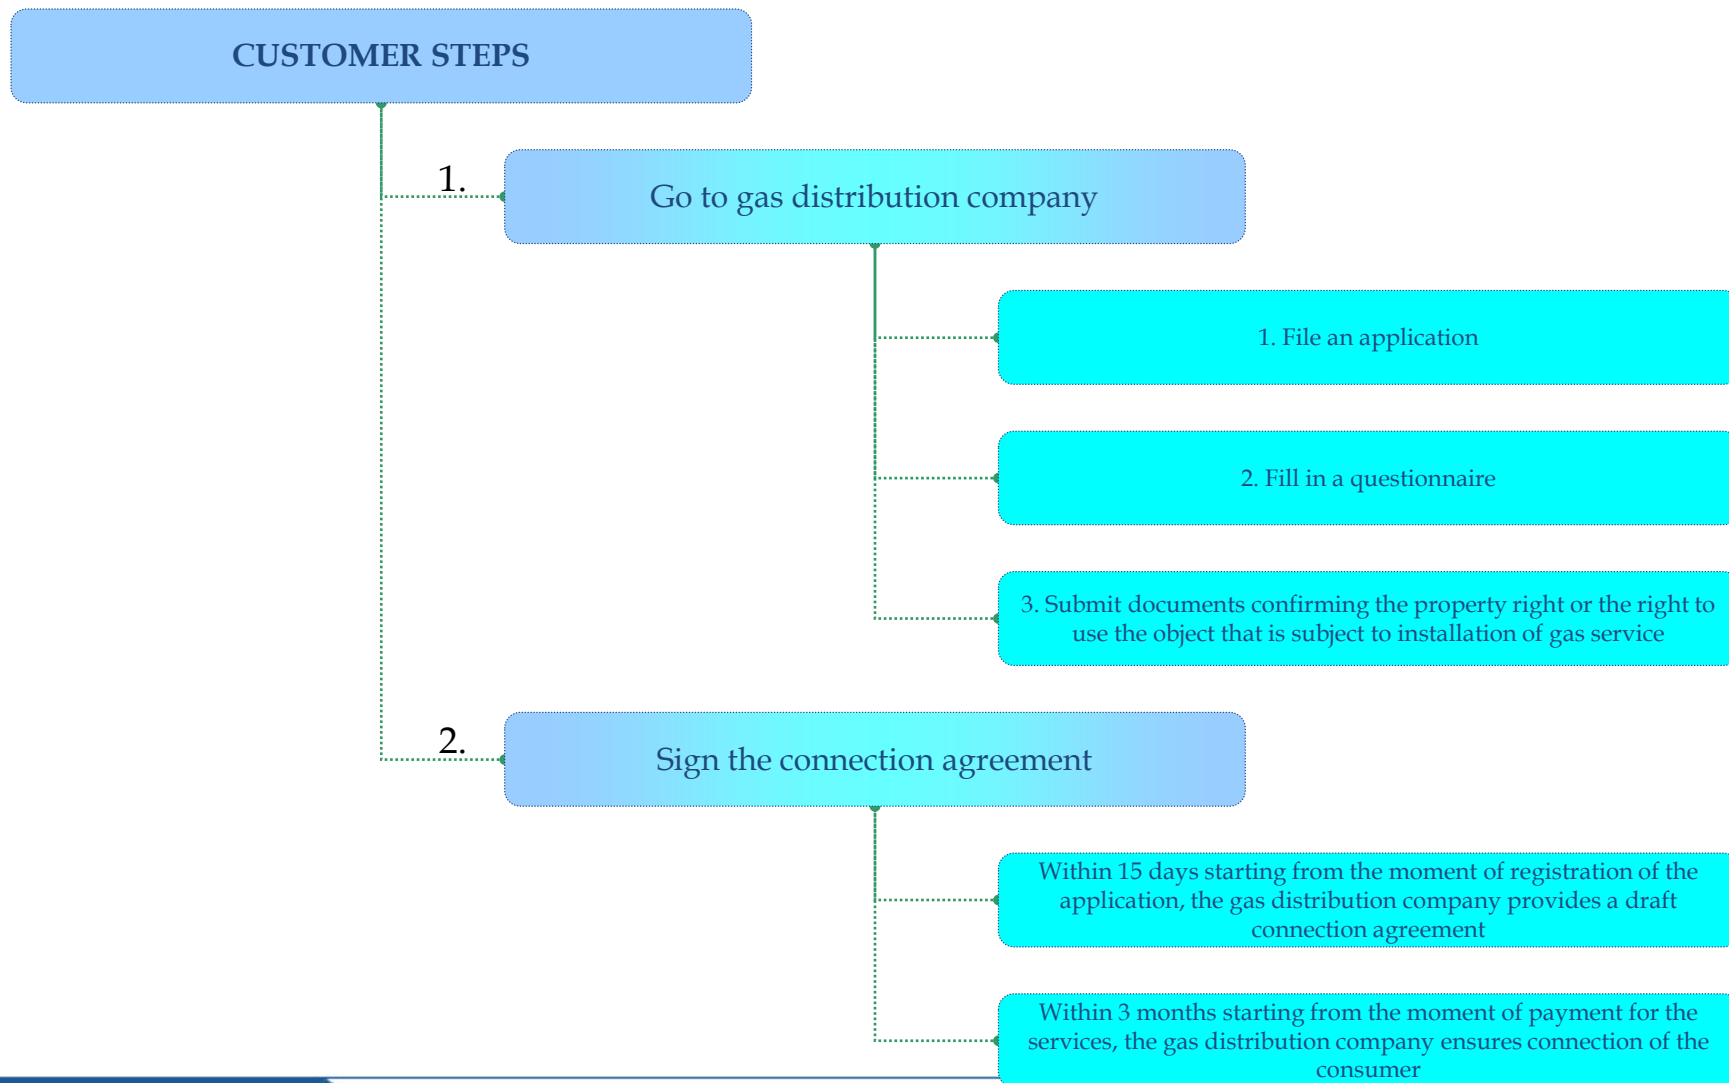

## Service provision terms:

- Term of completion of the whole set of works shall not be more than 3 months.

# Customer Procedure for standard connection

# NONSTANDARD CONNECTION

## Specification criteria:

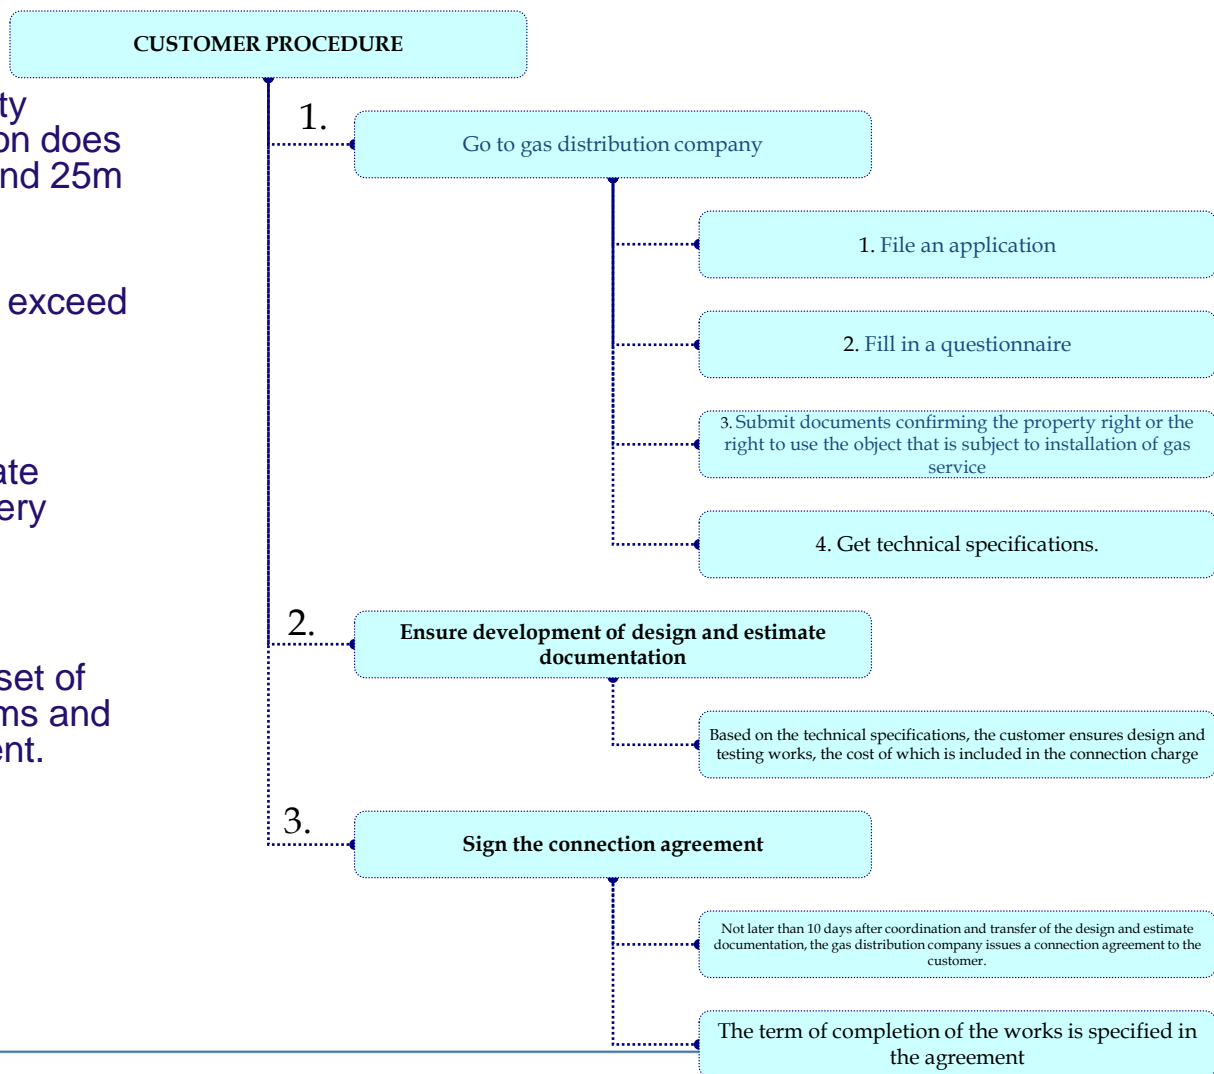

1. Distance from the point of capacity provision to the point of connection does not exceed 10m in urban areas and 25m in rural areas.
2. Gas consumer capacity does not exceed 16 c.m. of natural gas per hour.

## Cost of service:

- Defined by the design and estimate documentation individually for every connection case

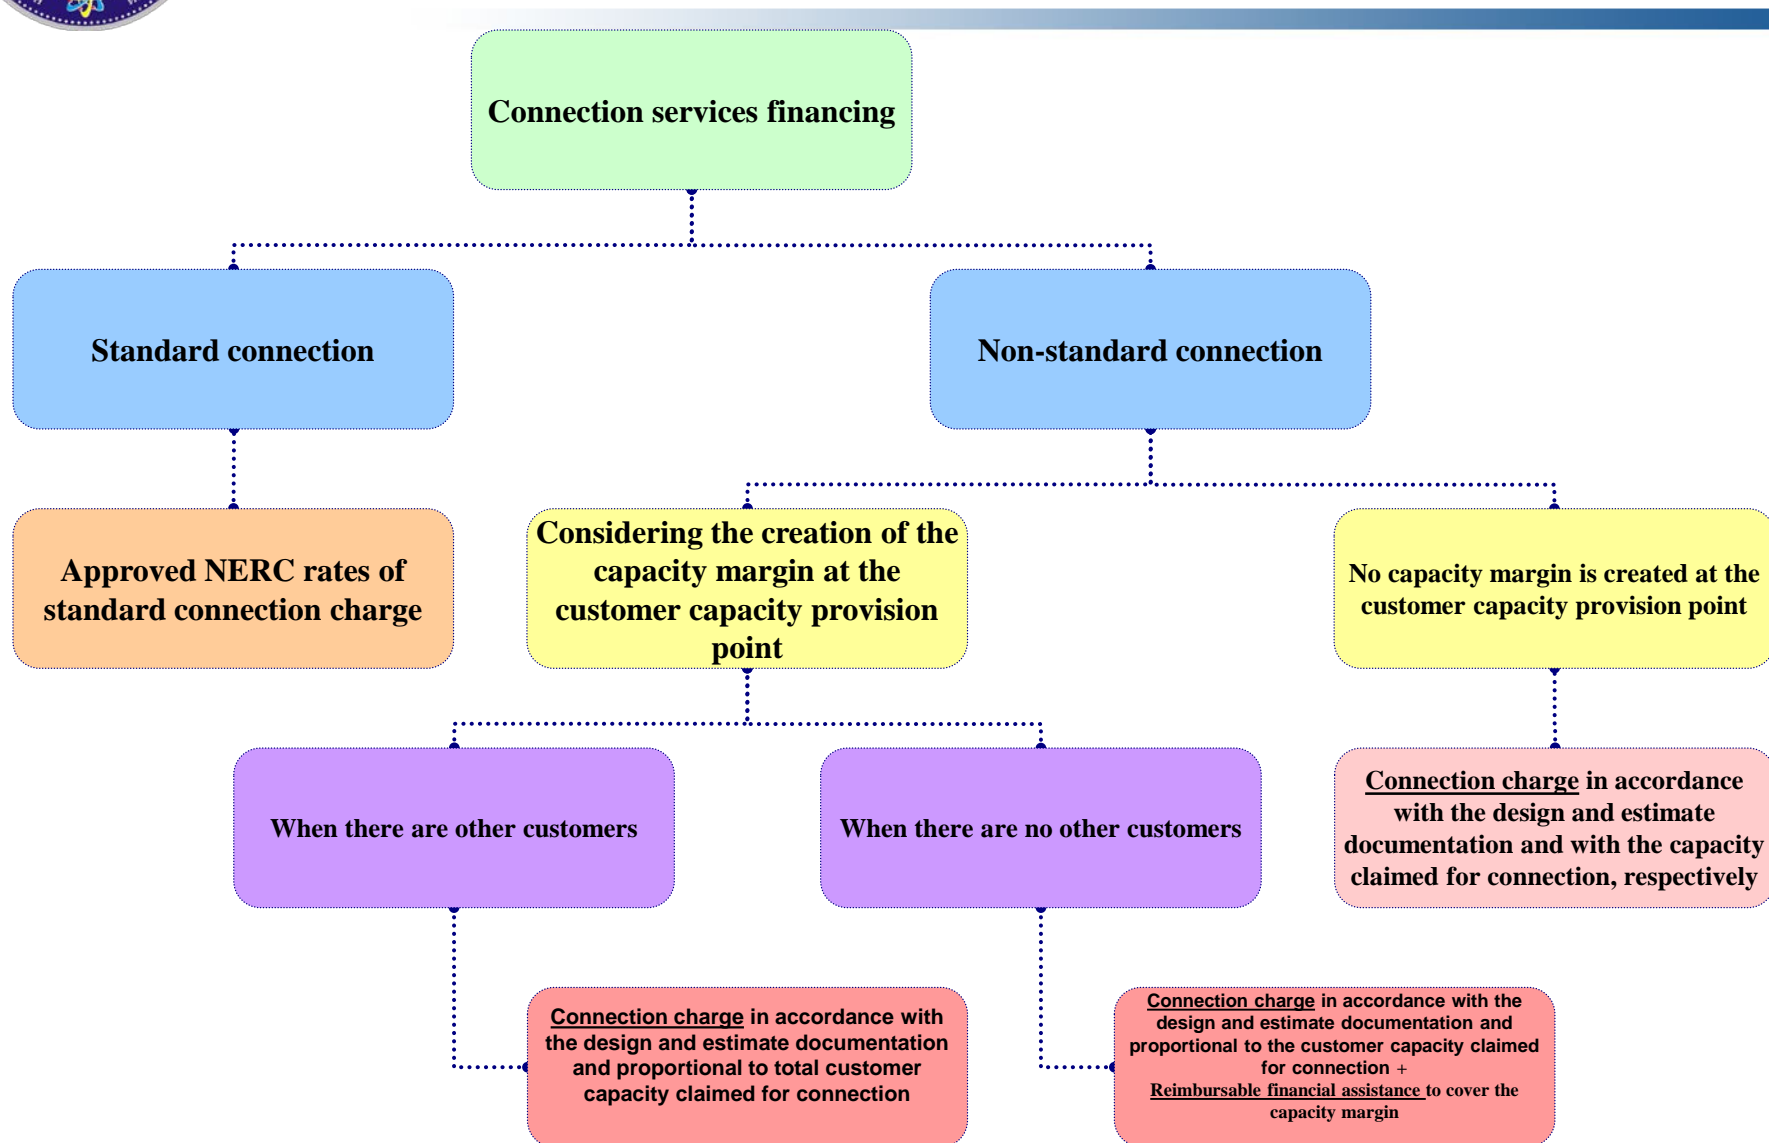

## Service provision terms:

- Term of completion of the whole set of works shall be defined by the terms and conditions set out in the agreement.

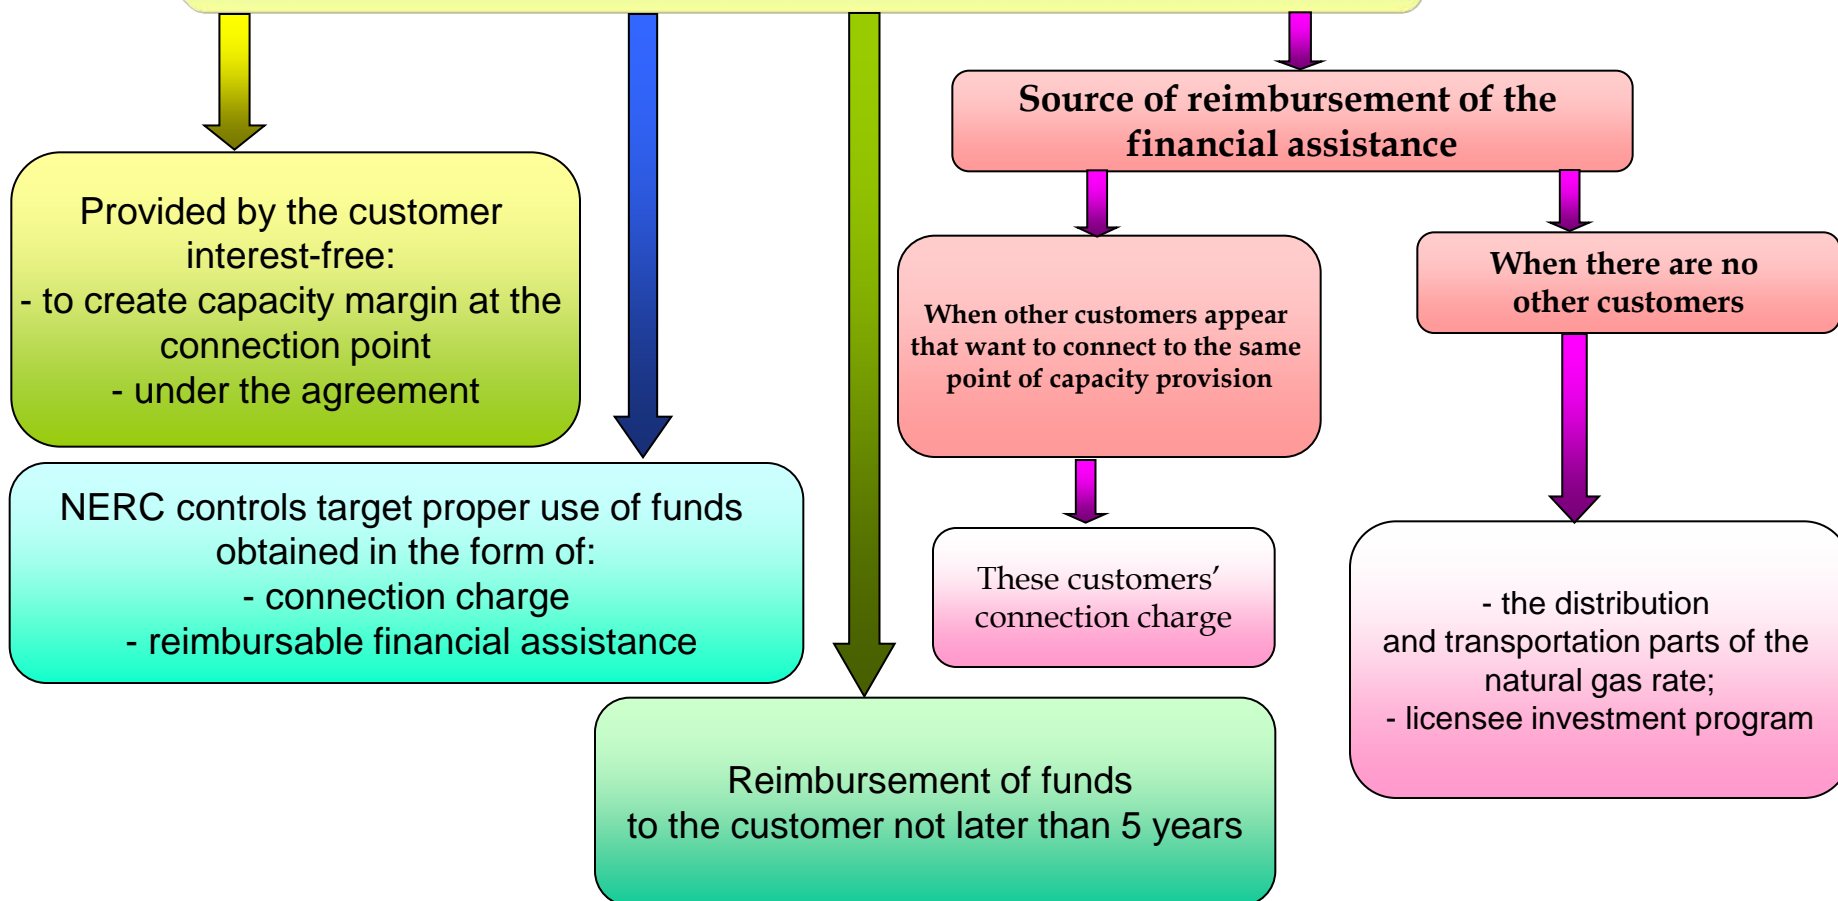

# Financing of customer gas connection services

## Reimbursable financial assistance

Thank you for your attention!
