NARUC Statement on Confirmations of New FERC Commissioners

WASHINGTON (December 1, 2020) — In response to the Senate confirmation of Mark Christie and Allison Clements to the Federal Energy Regulatory Commission, the National Association of Regulatory Utility Commissioners issued the following statement:

“The confirmation of Mark Christie and Allison Clements, which brings the FERC to a full quorum, is excellent news. A full complement of commissioners is essential to adjudicate the myriad issues that are before the agency. We look forward to continuing to engage FERC members on matters that are of importance to state regulators.”

—NARUC President Paul Kjellander of Idaho

In July, NARUC issued a [statement](#) praising the nomination of Mark Christie, which reflected the Association’s call for state regulators to be considered as FERC commissioners.

###

NARUC is a non-profit organization founded in 1889 whose members include the governmental agencies that are engaged in the regulation of utilities and carriers in the fifty States, the District of Columbia, Puerto Rico and the Virgin Islands. NARUC's member agencies regulate telecommunications, energy, and water utilities. NARUC represents the interests of state public utility commissions before the three branches of the federal government.
