- Type questions in the Q&A box.
- Join the NCEP listserv to be notified of future events by selecting NCEP as an interest area in your MYNARUC account at www.naruc.org/mynaruc.

The National Council on Electricity Policy (NCEP)

Unique forum for state electricity decision-makers throughout the country to examine the ways new technologies, policies, regulations, and markets impact their state and the grid.

NCEP thanks the U.S. Department of Energy for its ongoing support. NCEP is an initiative supported by NARUC.

How States are Approaching Load Growth: Managing Costs and Risks of Load Growth

Agency Perspective

- Which perspective(s) does your agency represent in this process?

Risks

- What do you identify as the risks of load growth happening in your state? Discuss these risks from the perspective of your various constituents.

Tools and Strategies

- What are the tools or strategies you use to manage costs and risks to your constituents?

Information Sharing

- What information do you want to know about large load growth projects from other agencies as you are approaching (or monitoring) policy decisions that would help manage the opportunities and risks?
