**NARUC**  
National Association of Regulatory  
Utility Commissioners

## **Virginia Commissioner Jehmal Hudson Joins NARUC Executive Committee**

**WASHINGTON** (July 10, 2024) — The National Association of Regulatory Utility Commissioners President Julie Fedorchak has appointed Judge Jehmal Hudson, chairman of the Virginia State Corporation Commission, as a member of its Executive Committee. Hudson replaces Kent Chandler, former chairman of the Kentucky Public Service Commission.

Hudson brings extensive experience with NARUC, as the current chair of the Committee on Energy Resources and the Environment and having served previously as chair of the Select Committee on Regulatory and Industry Diversity. He is a member of the NARUC Board of Directors and is the current president of the Mid-Atlantic Conference of Regulatory Utilities Commissioners.

“NARUC has always been an organization dedicated to representing state regulators who ensure affordable and reliable service in the utilities industry,” said Hudson. “I look forward to working with the Association in this new role, and I am very thankful to President Fedorchak for the opportunity.”

“Judge Hudson will be a tremendous asset to the Executive Committee,” said Fedorchak. “He brings a wealth of expertise, overseeing a dynamic, complex regulatory agency, coupled with federal experience and a deep understanding of the Association through his roles as a committee chair and board member. We are also very grateful to Commissioner Emeritus Kent Chandler for his hard work and dedication serving on the Executive Committee.”

Hudson’s appointment underscores NARUC’s commitment to effective leadership and regulatory excellence in the utilities sector.

The Executive Committee includes NARUC’s principal officers — the president, first vice president, second vice president, treasurer, and two appointed members. These officers serve as the face of the Association and are responsible for the organization’s overall direction.

### **About NARUC**

*NARUC is a non-profit organization founded in 1889 whose members include the governmental agencies that are engaged in the regulation of utilities and carriers in the fifty states, the District of Columbia, Puerto Rico and the Virgin Islands. NARUC’s member agencies regulate telecommunications, energy, and water utilities. NARUC represents the interests of state public utility commissions before the three branches of the federal government.*
