NARUC Center for Partnerships & Innovation

Identifying emerging challenges and connecting state commissions with expertise and strategies to navigate complex decision-making

The NARUC Center for Partnerships & Innovation (CPI) builds relationships, develops resources, and delivers training that provides answers to state commissioners’ questions. CPI is funded by cooperative agreements with the U.S. Department of Energy (DOE), the U.S. Department of Commerce’s National Institute of Standards and Technology (NIST), and charitable sources.

CPI works across four key topical areas:

<table>
<thead>
<tr>
<th>Energy Infrastructure &amp; Technology Modernization</th>
<th>Electricity System Transition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advancing understanding of innovative technology possibilities</td>
<td>Addressing evolving grid planning challenges and opportunities</td>
</tr>
<tr>
<td>• Carbon Capture, Utilization, and Storage</td>
<td>• Distribution Systems and Planning</td>
</tr>
<tr>
<td>• Natural Gas Infrastructure Modernization</td>
<td>• Comprehensive Electricity Planning</td>
</tr>
<tr>
<td>• Nuclear Energy</td>
<td>• Performance-Based Regulation</td>
</tr>
<tr>
<td>• Smart Grid</td>
<td>• Utility Business Models</td>
</tr>
<tr>
<td>• Grid-Interactive Efficient Buildings</td>
<td>• National Council on Electricity Policy (NCEP)</td>
</tr>
<tr>
<td>• Electric Vehicles</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Critical Infrastructure, Cybersecurity, Resilience</th>
<th>Emerging Issues</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ensuring the energy system is safe, secure, and resilient</td>
<td>Enabling commissions to explore new topics as they arise</td>
</tr>
<tr>
<td>• Critical Infrastructure</td>
<td>• Commission Staff Surge Calls</td>
</tr>
<tr>
<td>• Cybersecurity for Utility Regulators</td>
<td>• Innovation Webinar Series (open to all)</td>
</tr>
<tr>
<td>• Energy Emergency Preparedness</td>
<td>• Connections to Technical Assistance from National Laboratories and Other Experts</td>
</tr>
<tr>
<td>• Resilient Distributed Energy Resources</td>
<td>• Microgrids</td>
</tr>
<tr>
<td>• Microgrids</td>
<td></td>
</tr>
</tbody>
</table>

We look forward to engaging with NARUC’s members throughout the year—your needs drive our priorities and activities!

Current Activities

Recently Released Publications

- Private, State, and Federal Funding and Financing Options to Enable Resilient, Affordable, and Clean Microgrids (Jan. 2021)
- User Objectives and Design Options for Microgrids to Deliver Reliability, Resilience, Clean Energy, Energy Savings, and Other Priorities (Jan. 2021)
- Understanding Cybersecurity for the Smart Grid: Questions for Utilities (Dec. 2020)
- Artificial Intelligence for Natural Gas Utilities: A Primer (Oct. 2020)
- Cybersecurity Tabletop Exercise Guide (Oct. 2020)
- Public Utility Commission Participation in GridEx V: A Case Study (Oct. 2020)
- Battery Energy Storage Technology Adoption & Utility Structure (Oct. 2020)

Recent Events

- NARUC-NASEO Task Force on Comprehensive Electricity Planning. Resources developed by the Task Force will be shared in a virtual workshop on Feb. 11, 2021. Read the Task Force fact sheet. Contact Danielle

Available Virtual Learning Opportunities

- Cybersecurity Training for State Regulatory Commissions: NARUC is hosting a virtual cybersecurity training on Feb. 23-25, 2021. Contact Ashton
- Emergency Preparedness, Recovery and Resilience Task Force: The EPRR Task Force will meet Feb. 5, 2021 to discuss Building Resilient Infrastructure and Communities (BRIC) funding with FEMA. Contact Will
- Commission Staff Surge Calls. NARUC hosts quarterly calls for commission staff to discuss how different states approach emerging issues. Summaries from past calls are online; next call in March. Contact Kiera

Join us! NARUC hosts four working groups for members:

- Performance-Based Regulation. Contact Kerry
- Electric Vehicles. Contact Jasmine
- Microgrids. Contact Kiera
- Grid-Interactive Efficient Buildings. Contact Danielle
