

State DER Policies & Regional Markets

Marcus Hawkins
Executive Director

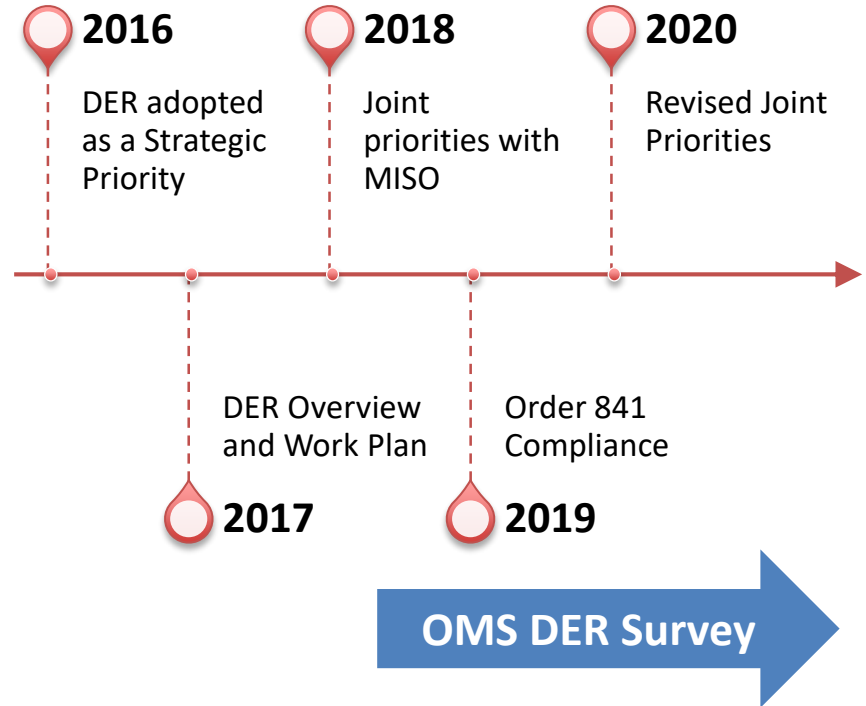

MISO footprint has 17 major retail jurisdictions

- OMS - regional state committee that represents the collective interests of the Commissions at both MISO and FERC
- Characteristics of MISO footprint relevant to DER
 - Largest RTO by area
 - Many different industries, policy preferences, interests covered
 - Similar regulatory structures

History of states working with MISO on DER

Recent examples of market coordination

Demand Response
Changes

Order 841
Implementation

IPL DER pilot

DER Task Force

Key issues going forward

Engagement

- Getting the right voices in the room
- Sharing experiences amongst states & utilities

Retail/Wholesale Tensions

- State conditions on retail programs – double counting
- Data sharing
- Metering and telemetry requirements for settlement

Participation Agreements

- Balance between utility review & access to market
- Locational aspects of resources
- Flexibility of agreements
