**NARUC**  
National Association of  
Regulatory Utility Commissioners

## **NARUC Welcomes Tina Schneider as New Director of Meetings**

**WASHINGTON** (May 1, 2025) — The National Association of Regulatory Utility Commissioners has welcomed Tina Schneider as the new director of meetings.

Before joining NARUC, Schneider was the senior vice president for meetings management at Management Solutions Plus, where she led a team of meetings and events professionals. Her extensive experience includes leading conference planning, trade shows and events for several organizations, including Washington, D.C.-based trade associations.

Schneider and Wendy Harris, the deputy director of meetings, will oversee the planning, logistics and execution of the Association's two policy summits and the annual meeting.

Michelle Malloy, former senior director of meetings, who recently retired from NARUC after more than 25 years of service, will continue to work with the Association contractually for several months to help ensure a well-coordinated transition.

"The depth of Tina's experience managing multiple association meetings, leading high-performing teams and designing exceptional events focused on members and attendees makes her a natural fit for this position," said NARUC Executive Director Tony Clark. "We are also pleased that Michelle Malloy will remain engaged in the near term during the transition to assist the Association and our members."

### **About NARUC**

*NARUC is a non-profit organization founded in 1889 whose members include the governmental agencies that are engaged in the regulation of utilities and carriers in the fifty states, the District of Columbia, Puerto Rico and the Virgin Islands. NARUC's member agencies regulate telecommunications, energy, and water utilities. NARUC represents the interests of state public utility commissions before the three branches of the federal government.*
