Large-load tariffs: What's in a name?

Database of Emerging Large-Load Tariffs (DELTA)

A public educational resource from:

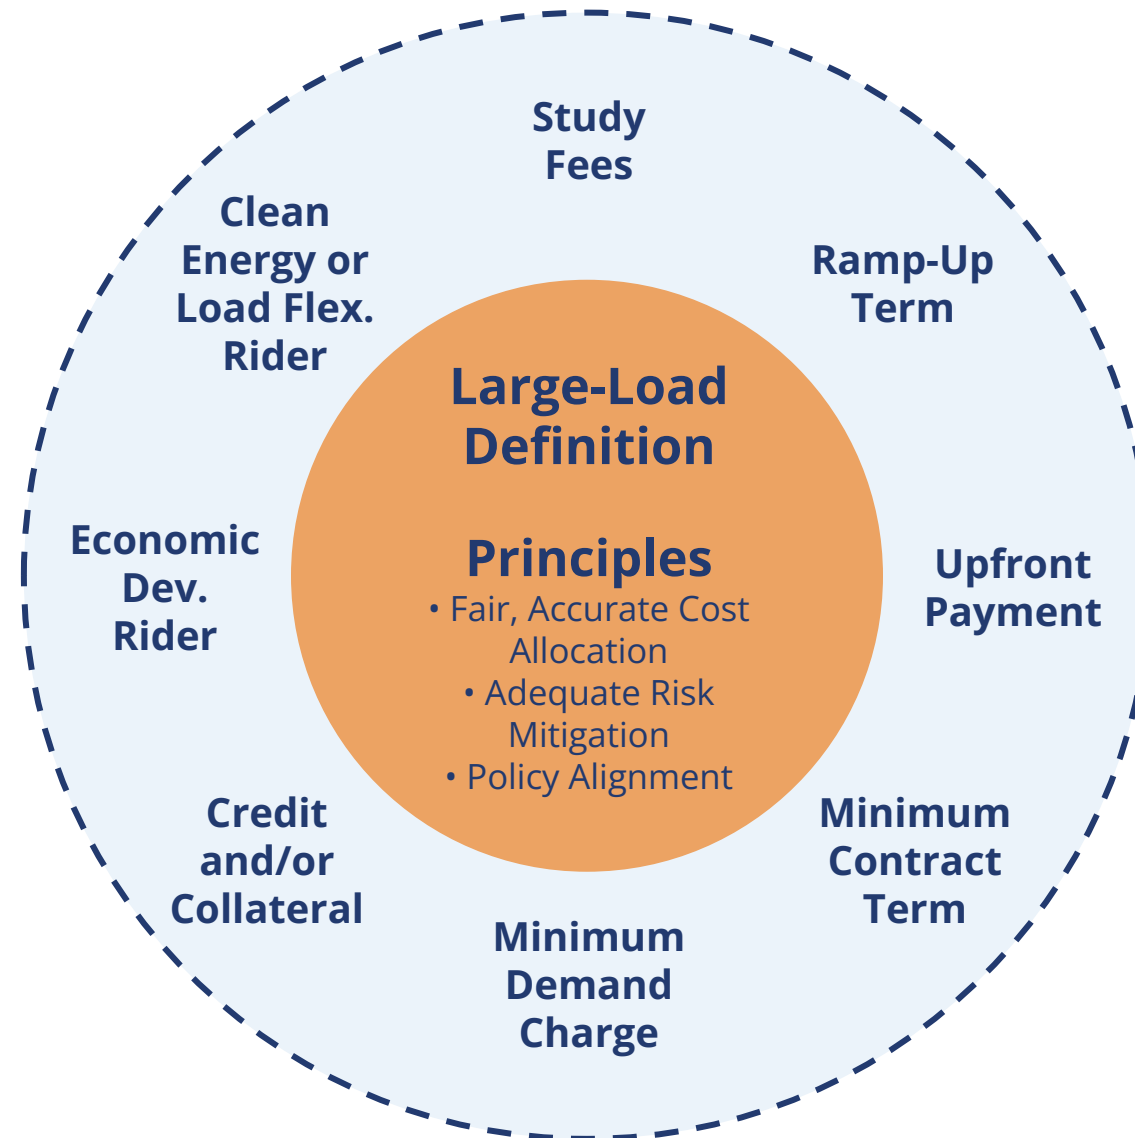

Q1 2026 update:

- 36 states, 60 utilities
- 77 tariffs and service rules
- Variety of goals and designs reflects place and vintage
- Ongoing activity and evolution

<https://sepapower.org/large-load-tariffs-database>

Are there large-load tariff design standards?

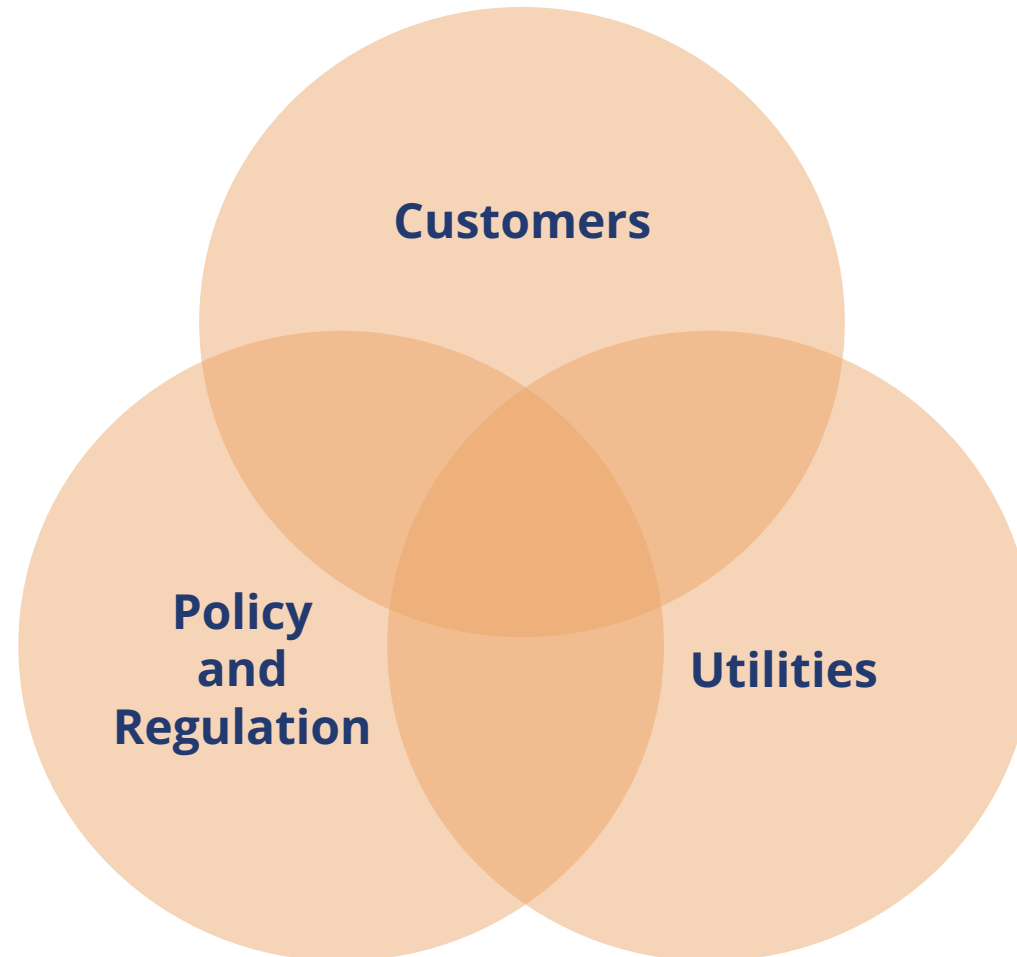

What can be said about impact?

Large-load tariffs are one of many interventions to support affordability in an era of load growth

Baseline Context

For example:

- Policy Framework
- Grid Conditions
- Development Activity

Implementation

For example:

- Programs & Contracts
- Utility Operations
- New Energy Policies

Let's stay in touch
