Regulatory Utility Commissioners

## **NARUC Expresses Disappointment in FERC's Order on Transmission Planning**

**WASHINGTON** (May 14, 2024) — In response to the Federal Energy Regulatory Commission's order on transmission planning, the National Association of Regulatory Utility Commissioners has issued the following statement:

"NARUC is still digesting FERC Order 1920 and evaluating our options, but we are generally disappointed by the significantly diminished state role envisioned by the FERC order with respect to transmission planning and cost allocation. In light of our recent joint task force with FERC on electric transmission and the newly proposed collaboration, we hope there will be future opportunities to ensure that state voices are heard."

— NARUC Executive Director Greg R. White

### ***About NARUC***

*NARUC is a non-profit organization founded in 1889 whose members include the governmental agencies that are engaged in the regulation of utilities and carriers in the fifty states, the District of Columbia, Puerto Rico and the Virgin Islands. NARUC's member agencies regulate telecommunications, energy, and water utilities. NARUC represents the interests of state public utility commissions before the three branches of the federal government.*
