### 'On time and informative'

**"Our guide was Diana Saenz. She navigated her narration, the prerecorded commentary, our questions AND the weekend traffic easily. We've been to San Antonio many times but this was an eye-opener. We saw and learned about many attractions we just haven't seen before...we had been driving past them all this time. We'll be using Gray Line tours again, even in our home towns of Charlotte and New Orleans. Highly recommended for an easy afternoon. Then pick up a leisurely dinner at the River Walk. " -Stephen A 01/2018**

## 'A great way to see the city!'

"If you are new to San Antonio, I highly recommend this tour to get more information about things to do and see in the city. Our tour guide and driver, Eric Clarke had a vast knowledge of the city and was an excellent driver. Take the tour on your first day and then decide what you most like to see." - UneGrandeDame 04/2018
