NARUC Statement on Trump Assassination Attempt

WASHINGTON (July 14, 2024) — In response to the July 13 attempted assassination of former President Donald Trump, the National Association of Regulatory Utility Commissioners has issued the following statement:

“Last night’s attempted assassination of former President Donald Trump is a dark day for America, regardless of your political beliefs and it’s a shocking backdrop to the start of our Summer Policy Summit. The NARUC family mourns the death and serious injuries of the innocent bystanders, and we remain ever committed to our tradition of peaceful, respectful discussions and the bipartisan friendships and relationships that are a hallmark of NARUC. May God bless all involved in this, Presidents Biden and Trump as they continue in this election and our beloved United States of America.”
